Professional Experience

STRAY KITE STUDIOS

UI/UX Designer

Oct 2024 - present

- Lead the entire UI/UX pipeline for Wartorn, a RTS rogue-lite, supporting the game through its release.
- Design wireframes, establish the UI visual style, and created over 100 icons
- Build widgets in the UE5 editor and contributed directly in Blueprints, the material editor, and the animation tool.

BLIND SQUIRREL GAMES

Mid UI/UX Artist

May 2022 - Aug 2024

- Worked closely with artists, designers, and engineers at Amazon Games to create art for the MMORPG, New World.
- Created game-ready UI assets for 2 shipped expansions: iconography, pixel-perfect mockups, and animations.
- Document and uphold visual design guidelines along with proposing improvement on current design systems.

JAM CITY

UI/UX Intern

June 2021 - Dec 2021

- Designed wireframes, mockups, flows and UI art for a released event in the mobile RPG, Harry Potter: Hogwarts Mystery.
- Conducted UX research to propose design solutions for the best player experience in the mobile game environment.
- Collaborated closely with Game Design, Engineering, Art, and Product to plan and execute new features.

UCI ESPORTS

Graphic Design Intern

July 2020 - July 2022

- Designed 100+ visual materials such as match graphics, social media posts, logos, stream materials, and layouts and led apparel designs for jerseys and other program gear.
- Planned and developed branding for tournaments and campaigns.

Education

University of California, Irvine

Informatics, B.S.

Human Computer Interaction

Sep 2018 - Mar 2022

Ravensberger Gymnasium

Germany

Student Exchange

June 2018 - Jul 2018

Projects
